

As a resident of Indiana and a participant of the 'Indiana Telephone Privacy List' I wish to comment regarding the Indiana Law. My home telephone number has been listed on the 'Indiana Telephone Privacy List' since its inception. During that period of time my family and I have experienced only one violation of our privacy. Indiana's telephone privacy list is working and should not be diluted in any manner whatsoever. Request that the FCC maintain Indiana's high standard of telephone privacy and refuse the action to modify as requested by the CBA. Thank you. Philip L. Fretz
